

**CERTIFICATE OF COMPLIANCE  
OF PRODUCTION CONTROL ON-SITE**

**CE N° 0380 - CPR - 600**

In the framework of the EU Regulation N° 305/2011 set forth by the European Parliament and the Council on 09 March, 2011, which harmonised the conditions to commercialise construction products and repealed Directive 89/106/CEE of the Council, it was established that for the following product:

**V-Urban**

Product description:

***For structural use***

**Cement bonded particle board conforming to EN 634-2 for outdoor use**

**Thicknesses 12 and 16 mm**

Produced by: **VIROC**

Manufactured in the factory located: **519 SETUBAL - Portugal**

FCBA, as the notified body N° 0380, carried out the initial inspect of the facility and tested production on site and carried out the audit, assessment and continuous approval of the on-site production (system 2+).

The present certificate attests that all provisions concerning the conformity attestation of the on-site production set forth in the harmonised technical specification of reference **NF EN 13986: 2004 + A1 : 2015** have been applied.

This certificate was issued for the first time on **20/07/2017**, and except for withdrawal or suspension, shall remain valid as long as the conditions described in the harmonised technical specifications, production conditions on the site and production testing in the facility shall continue to conform.

The list of valid certificates of conformity can be accessed on the [www.fcba.fr](http://www.fcba.fr) site.

*(In case of litigation, only the French version of the present certificate is the authentic text).*
